The peremptory tone of M. Sazonoff's first note to China can never be explained on other than temperamental grounds, as notifying China that he was a man not to be trifled with. But some weeks earlier M. Kokovtzeff, the minister of finance, emphasized the necessity of dealing freumspectly with China. Whose MAKE OF CHEESE

nowadays you simply ask for cheese, just as you ordered crackers in the old days before the advent of "UNEEDA." And this leads to the thought

that some CHEESEMAKER is allowing a very large amount of business to slip through his fingers BECAUSE HE DOES NOT ADVERTISE his cheese. IF CRACKERS CAN BE SUCCESSFULLY ADVER-TISED, WHY NOT CHEESE? UP STEADILY.

The readers of the newspapers printing these stories will probably spend this year \$4,500,000 for cheese-an estimate based on the expenditure of only 25 cents per month for each family.

Whose cheese will they buy? An ADVERTISING APPRO-PRIATION based on the amount of business that might reasonably be secured by an INTELLI-GENT CAMPAIGN in this and in other newspapers, would just as surely SECURE THE CHEESE BUSINESS for the advertised cheese as a similar -campaign has secured the bulk of the cracker trade for "UNEEDA BISCUIT."

PROVIDED the maker who advertised gave the people A GOOD CHEESE at a reasonable price, was honest in his business dealings with them, did TRUTH-FUL advertising, and KEPT IT
